PROFESSIONAL SUMMARY

Backend Developer skilled in Node.js, Express.js, MongoDB, and REST API development. Experience building scalable backend systems including real-time chat applications using Socket.IO and secure authentication using JWT. Strong understanding of MVC architecture, CRUD operations, database design, and API integration. Passionate about Data Structures & Algorithms and building efficient, production-ready backend applications.

TECHNICAL SKILLS

Backend Development	Database	Concepts	Tools
• Node.js • Express.js • REST API Development • Socket.IO • JWT Authentication • Middleware Implementation	• MongoDB • Mongoose	• MVC Architecture • CRUD Operations • Authentication & Authorization • API Design • Real-time Communication • JSON Handling	• Git • GitHub • Postman • VS Code • npm

PROJECTS

Tech Stack: Node.js, Express.js, Socket.IO, MongoDB

- **Developed real-time chat application enabling instant communication between users using WebSockets.**
 - Implemented Socket.IO events for sending and receiving messages in real time.
 - Designed room-based architecture for private chat between two users.
 - Created RESTful APIs for user authentication and message management.
 - Applied MVC architecture for scalable and maintainable backend structure.
 - Handled multiple concurrent connections efficiently.

Social Media Backend API

Tech Stack: Node.js, Express.js, MongoDB, JWT

- Built REST APIs for social media features including user authentication, posts, likes, and comments.
- Implemented secure authentication and authorization using JWT tokens.
- Designed modular backend architecture using controllers, routes, models, and middleware.
- Performed database operations using MongoDB and Mongoose.
- Tested APIs using Postman.
- Used Git for version control and project management.

CRUD Web Application

Tech Stack: Node.js, Express.js, MongoDB, EJS

- Developed full CRUD functionality for managing data records.
- Implemented RESTful APIs for create, read, update, and delete operations.
- Used EJS templates for dynamic rendering.
- Integrated method-override for PUT and DELETE requests.
- Structured project using MVC design pattern.
- Managed database operations using MongoDB.

EDUCATION

Bachelor of Technology (Computer Science Engineering) Arni University, Himachal Pradesh Expected Graduation: June 2026	12th – HPBOSE Score: 87.6% 10th – HPBOSE Score: 90%
--	--

CERTIFICATIONS

- Programming in Java – IIT Kharagpur (Elite)
- Data Analytics with Python – IIT Roorkee (Elite)
- Apna college - Web Development
- GeeksforGeeks 8 Weeks React Course
