ABOUT ME

Dynamic Backend and Frontend Developer with experience at GeeksforGeeks and Hoping Minds. Expert in building responsive web applications using Node.js, React.js, and MongoDB. Proven problem-solver with strong communication skills, successfully implementing RESTful APIs and state management to enhance user experience and application performance. Passionate about creating innovative solutions.

EDUCATION

Arni University | Kathgarh, Indora B. Tech in
Computer Science and Engineering (Expected
in 06/2026)
HPBOSE | Gangath 10th — GPA: 90%
HPBOSE | Gangath 12th — GPA: 87.6%

CERTIFICATION

- Completed Programming in Java course from IIT Kharagpur, Elite batch
- Completed Data Analytics with Python course from IIT Roorkee, Elite batch
- GeeksforGeeks 8 weeks React Course

EXPERIENCE & PROJECT

GeeksforGeeks | Hybrid — Backend Developer (06/2025 - 08/2025) • Built a CRUD web application using Node.js, Express.js, MongoDB, and EJS. • Implemented RESTful APIs for creating, updating, and deleting listings. • Designed dynamic EJS templates with EJS-Mate layouts for a better user interface. • Applied MVC architecture, integrated method-override for PUT/DELETE requests, and managed MongoDB using Mongoose.

Hoping Minds | Chandigarh — Frontend Developer (06/2024 - 08/2024) • Developed a To-Do App using React.js, Redux, and Tailwind CSS. • Implemented state management with Redux for adding and deleting tasks dynamically. • Utilized React hooks (useState, useDispatch, useSelector) for efficient component-level state handling. • Integrated UUID for unique task identification and implemented task deletion functionality. • Strengthened knowledge of responsive UI design and component-based architecture.

SKILLS

• HTML • CSS • Responsive Web Design • Multitasking • Problem-solving abilities • Effective Communication • JavaScript • Basics Python • Node.js • Express.js • MongoDB
